

GENERAL INDEX OF THE TEN VOLUMES.

(SECOND SERIES.)

With each volume has been published a complete Index of Names found therein; these are not here repeated.

In looking for names of persons, regarding whom special biographical information is sought, see "Biographies," "Biographical Sketches," and "Necrology." The names of such persons as are so treated are alphabetically arranged under these heads, and their names are not repeated in the General Index.

Names are arranged in strict alphabetical order of spelling; contracted names, like those beginning with "Mc," are placed according to the contracted form.

"Books Noticed" are indexed by author's names.

The statistics of a given State, or other place, are all grouped under the title "Statistics."
